Before investing you should carefully consider each Fund's investment objectives, risks, charges and expenses. This and other information is in their respective prospectus which can be found at <https://horizonsetfsus.com/>. Please read the prospectus carefully before you invest. Individual shares of the Horizons-branded exchange traded funds may be purchased or sold in the secondary market throughout the regular trading day. However, shares are not individually redeemable directly from the Funds. Each Fund issues and redeems shares on a continuous basis, at NAV, only in blocks of at least 50,000 shares ("Creation Units"), principally in-kind for securities included in the relevant Index. Horizons ETFs Funds' Shares are bought and sold at market price (not net asset value), are not individually redeemable, and owners of the Shares may acquire those Shares from the Funds and tender those shares for redemption to the Funds in Creation Unit aggregations only, consisting of 50,000 Shares. Brokerage commissions will reduce returns.
